

Kit Officer Report 2017 – 2018

Since introducing Team App, selling and buying club kit has become considerably easier. Members can buy club kit directly from the store, cutting out the need to email me their requests and then paying into the club bank account. Kit is sold at cost price, club makes no profit on this.

I sourced a new supplier for club vests (Scimitar) as I felt that these were much better quality and value for money than the previous supplier (Ron Hill). It took a while to get the colours right, but members are happy with the new vests. We still have a decent stock of long sleeved vests and shorts from Ron Hill, so won't be ordering any more of these at this time.

Ugly Duck still supply club tees and hoodies, members contact them directly to order these which seems to work well. I may look at better quality tees in the near future, possibly from Scimitar.

I have just placed an order for some Elvet Striders buffs, I am really happy with the design, quality and price, and will be putting these for sale on Team App when they arrive in a few weeks. I am always happy to consider ideas for new kit, please let me know if you have any!
